

**A01**  
Assessment Objective 1  
You can begin to develop your ideas once you have collected your source materials. You might have some general concepts about what you want to do, but your ideas will change and develop as you investigate your source material. You'll need to do more research and find new source materials as your work develops.

**A02**  
Assessment Objective 2  
Assessment Objective 2 is about refining your ideas through selecting and experimenting with appropriate resources, media, materials, techniques and processes. There are various ways of using these to develop ideas and create a personal response.

**A03**  
Assessment Objective 3  
Assessment Objective 3 is about recording your ideas, observations and insights, which can be in visual, written and other forms. You should work from a range of experiences and stimulus materials, as each of these could lead you to different ways of developing your ideas. You should reflect upon your work, and consider what you have achieved at each stage and what you will do next.

**A04**  
Assessment Objective 4  
Assessment Objective 4 is about presenting a personal, informed and meaningful response, from your initial research through to the final piece. You need to demonstrate analytical and critical understanding as you respond to your theme. By practising your skills in using different media and processes you are able to develop the ways in which you convey your ideas and responses - your personal visual language.

Timescale	Year 10 Work to produce over the Summer 2020	By when	Number of sheets	Complete tick
