

ST GEORGE'S ACADEMY

CURRICULUM POLICY

1. Intent

The curriculum should enable all young people to become:

- Successful learners who aim high, enjoy learning and make strong progress
- Effective learners who reflect, are resilient and take responsibility for their learning towards their future goals
- Confident individuals who are able to live safe, healthy and fulfilling lives
- Responsible citizens who uphold Academy values and make a positive contribution to society

2. Key characteristics

The key characteristics and principles underlying our curriculum are as follows:

3. Objectives

To strive for an effective and engaging curriculum which:

- * Is tailored and relevant to the particular needs and interests of learners (personalised)
- * Is accessible to all learners (inclusive)
- * Ensures a broad fundamental base of knowledge, with a good balance of the theoretical, applied and creative for all (balanced)
- * Makes explicit the key concepts and key processes that underpin and connect learning within and across subjects (coherent)
- * Makes explicit the way in which learning will be layered and will facilitate progress over time (sequential)
- * Promotes depth of study and thought, along with mastery of the fundamentals (effective)
- * Provides clear opportunities for students to experience enrichment and foster a love of learning (rich)

ST GEORGE'S ACADEMY

CURRICULUM POLICY

4. Implementation:

Structural Overview Values represent hours per fortnight.

Key Stage 3:

Year	7	8	9
English	7*	6	7
Maths	6	6	6
Science	6	6	7
Computing	2	2	2
PE	4	4	4
History	4	4	4
Geography	4	4	4
EPR	2	2	2
MFL	4^	4^	4+
Art	2	2	4~
Music	2	2	
Drama	0	1	
Digital Literacy	1	1	0
PSHE	2	2	2
Technology	4	4	4

*Year 7 Drama is embedded into English

^ Students who require additional support with literacy have 2 hours of MFL and 2 additional hours of literacy.

From September 2025:

+ Parents/carers are given the opportunity to express whether they would like their child to be considered for additional numeracy and literacy instead of continuing with a language as they move into year 9.

~ Students study two of Art, Music or Drama in year 9.

ST GEORGE'S ACADEMY

CURRICULUM POLICY

Key Stage 4:

Year	10	11
English	8	9
Maths	8	9
Science	8 ⁺	10 [*]
PE	4	2
EPR	0	0
PSHE	2	2
Technology	0	0
Option A	5	5
Option B	5	5
Option C (Open)	5	6
Option D (Vocational)	5	0
Academic Mentoring	0	2

- * **Year 11** More able students study separate science in their Science curriculum time to allow an additional option subject.
- + **Year 10** from September 2025 have Separate Science as part of one of their Option choices at both Higher and Foundation Level.

ST GEORGE'S ACADEMY

CURRICULUM POLICY

Key Stage 5:

Key Stage 5

	Year 12	Year 12 & 13		
	Level 2	Level 3 Applied	Level 3 Academic	
English GCSE	6	English GCSE*	6	
Maths GCSE	6	Maths GCSE"	6	
Level 2 Full-Time Programmes	Br, Ce, Jo, Pc	Level 3 Single, Double & Triple Award	Ab, Po, Bs, Tt, Hs, It, Ms, Pr, Mb, Sb, Sf, Tx, Ce, Cr, Sp	Ar, Gg, Hi, Lw, So, Py, Pi, Ll, Ma, Fr, De, Sp, Bi, Ch, Ph, Pe, Gr ^
			8+2 each	10 each
Life Skills	2	Life Skills	2	
Enrichment	4	Enrichment	4	
Study Hour	2*	Study Hour	2*	
Work Experience	10-20	Work Experience	1 week	

Progression to Level 3 Applied Pathway

Also available as a Mixed Pathway

- + Additional study hour dependent on need - e.g. extra Maths, coursework support or stretch / challenge
- * Improving grade 4 to 5
- " May access some level 3 applied courses with grade 3 Maths
- ^ Also available at RCT: Ap, Cp, La, Li, Dr, Mu, Rm, Fu

5. Implementation by Key Characteristic: Personalised and Inclusive – less able

The following outlines the way in which the curriculum is tailored and designed to meet the needs of the less able and allow them to flourish.

ST GEORGE'S ACADEMY

CURRICULUM POLICY

- Students with the most significant literacy difficulties follow a Supported Transitional Curriculum for Year 7 and 8. Whilst they still experience learning a Modern Foreign Language, they are allocated additional time to improve their literacy skills to make the Secondary Curriculum more accessible.
- All students are able to access a full, broad and balanced curriculum without a diminished offering at Options in Key Stage 4
- All students are able to choose the EBAC suite of qualifications as part of a 3 year KS4 study, with a move to a 2 year KS4 for year 9 from September 2025.
- The Key Stage 4 curriculum has a wide range of subjects that ensure students are able to follow an academic or vocational programme as well as the opportunity to study a balance between the two
- Importance is placed on the creative arts and talent based subjects, by ensuring students are able to excel in these areas as well as academically
- Students who have not achieved grade 4+ in English GCSE (and Maths) by Year 12 progress onto a Level 2 Programme in Key Stage 5 where a good range of courses, well aligned with local employment opportunities and with enrichment and work experience embedded, allow for transition to employment, further education or Level 3 study
- Students may therefore follow a three year Key Stage 5 programme of study, ultimately achieving a recognised Level 3 equivalent of 3 A Levels

6. Implementation by Key Characteristic: Personalised and Inclusive – more able

The following outlines the way in which the curriculum is tailored and designed to meet the needs of the more able and ensure they remain challenged.

- For students completing GCSEs 2026, more able scientists study Triple science during Core Science via 3 year Key Stage 4, thus not reducing the range of options they may take
- For students completing GCSEs 2027 onwards, GCSE Separate Science is available to all students, regardless of prior ability as part of the options programme
- Information is shared with all students and parents about the potential benefits of studying the EBAC suite of subjects. All students are able to select this combination as part of their Key Stage 4 Options with a focus on raising aspirations
- Additional sets are created in English, Maths and Science to facilitate an extension group at Key Stage 4.
- The Sleaford Joint Sixth Form provides access to a wide range of academically challenging A Levels, including Further Maths

7. Implementation by Key Characteristic: Personalised and Inclusive in broader terms

The following outlines the other ways in which we ensure the curriculum meets the needs of individuals and includes them in productive learning opportunities.

- Around 60 Year 6 students are invited to attend Summer School in order to support with transition. These are students who are identified for the STG, SEN, PP or have identified anxiety issues around transition

ST GEORGE'S ACADEMY

CURRICULUM POLICY

- The PP funding provides Key Stage Learning Mentors who personalise the provision for disadvantaged students in a wide variety of ways, from breakfast to homework support and equipment provision
- The SEND departments run a wide range of activities to support those with specific needs, including Beat Dyslexia, Precision Teaching (spelling), Toe by Toe, Power of 2, Fresh Start, Physio etc
- The capacity created by the Applied 2-year option, for GCSEs in ~~2025~~ and 2026, provides an opportunity for tailored support, study skills and mentoring. The tailored support is organised by a comprehensive termly review of performance data and individual subject requests, which result in Year 11 timetables adjusting to meet their ongoing needs

8. Implementation by Key Characteristic: Balanced

The following outlines the way in which we ensure that the curriculum remains broad and balanced at Key Stages 3 and 4.

- The Key Stage 3 Curriculum has a key focus on core subjects whilst protecting the expressive and talent subjects
- Year 6 students have an opportunity to express a preference as to which Modern Foreign Language they wish to study
- The Life Skills Coordinators ensure that PSHE delivery is well planned and monitored for quality
- The vast majority of students continue to study a Humanities subject at KS4, with the opportunity to study both
- All students have the opportunity to choose a Language at KS4
- Students in year 10 (2025) chose 2 subjects to study for 3 years from Year 9, to include the EBAC and talent subjects. They then selected a further 2 subjects to study at KS4 for 2 years from a wide range of possibilities
- Students from September 2026 choose 4 subjects to study for 2 years from year 10, from a wide range of subjects to include EBAC and talent subjects.
- The vast majority will therefore undertake a combination of talent/expressive/creative subject alongside a more academic course of study, creating a broad balance of skills and knowledge
- Many students undertake a Mixed Pathway at Key Stage 5, which combines one or two academic A Levels with one or two vocational courses, providing a three A Level equivalent pathway with a good balance of theory, coursework, examination and application
- The usual timetable is suspended from time to time to facilitate special delivery days/weeks, for example Multi-Agency PSHE days in Year 7 and 9, Taster sessions for Year 9 and 11 options, Careers Fairs
- We highly value Careers Education and retain the opportunity for every Year 12 student to undertake a work experience, in addition to embedded work experience in all the Key Stage 5 Level 2 programmes. Our Year 10 students have a week that is dedicated to careers to ensure that they consider their goals and ambitions in the longer term

ST GEORGE'S ACADEMY

CURRICULUM POLICY

9. Implementation by Key Characteristic: Coherent and Sequential

The following outlines the way in which there is coherence across the curriculum and progression within.

- Individual subjects have all identified the big ideas, concepts and processes and a common approach to things like literacy, numeracy, Blooms taxonomy and command words assist students in making links.
- Key Stage 2 Prior Learning is carefully considered.
- Following the release of Year 6 data and transitional work with feeder schools the least able will have a supported transition with a base room and consistent TA support for all literacy-based subjects, a reduced curriculum and intervention support with reading at Key Stage 3. Support is continued in KS4 with the potential for a student to reduce their options by 1 subject and receive additional support in key subjects that will support progression into KS5 study and/or the world of work. This student may then progress onto a Level 2 programme at Key Stage 5 with further GCSE English and Maths tuition with a view to being Level 3 ready by the end of Year 12 when they are then able to progress onto applied and accessible Level 3 courses.
- The majority of students will follow a broad and balanced curriculum at Key Stage 3 followed by an opportunity to achieve the full suite of EBAC qualifications, whilst retaining the chance to study both vocational and creative/talent/expressive subjects. Study skills and tailored support in Year 11 will support the student to achieve their full potential and progress to Level 3 study. Their programme at Key Stage 5 may be varied in its makeup and, from the breadth available, will support the student to achieving their future goals and will be equivalent to three A Levels. Enrichment, work experience and PSHE, including financial education, will help them transition to their next step successfully.
- The most able students will be challenged by a condensed Key Stage 3 curriculum, which will see them swiftly progress onto a Key Stage 4 curriculum. The Key Stage 4 curriculum provides opportunity for Separate Science, and Statistics alongside EBAC subjects to offer stretch and challenge for our most able learners. These provide a strong foundation for Level 3 Academic study. The full suite of EBAC qualifications will be delivered, whilst protecting the valuable study of both a vocational option and a creative/talent/expressive subject. Extension sets in English, Maths and Science will ensure challenge alongside the opportunity to undertake an EPQ in Year 11. At Key Stage 5, a broad range of robust vocational qualifications as well as A Levels at all three Sleaford schools, including Further Maths, Law, three Languages and Economics will be available. Enrichment, work experience and PSHE, including financial education, will help them transition to their next step successfully.

10. Implementation by Key Characteristic: Effective

The following outlines the ways in which our curriculum promotes depth of study and thought, along with mastery of the fundamentals.

- All subjects have personalised Blooms taxonomy for Key Stage 4 and use it to develop higher order thinking and deepen understanding of command words.
- Student feedback requires students to respond to a follow up question to support progress or deepen thinking every 6 to 8 lessons
- All Key Stage 4 students are taught how to mind map concepts, along with other techniques which help students make connections in their learning and assimilate key knowledge

ST GEORGE'S ACADEMY

CURRICULUM POLICY

11. Implementation by Key Characteristic: Rich

The following outlines the way in which the curriculum provides clear opportunities for students to experience enrichment and foster a love of learning.

The range of enrichment and extra-curricular opportunities at an Academy of this size is extensive. A broad selection might include:

- Sixth Form have access to an extensive Enrichment Programme
- The Brilliant Club
- The House system is fully embedded in the school and all Year 7, 8 and 9 participate in house events, which continue into Key Stage 4 and 5. In addition to the Sporting events on offer there is also a number of non-sporting events, reaching across the curriculum
- There are a number of special events during the academic year, including Year 7 and Year 9 MAD Days, Year 8 Arts Day, World Book Day, European Day of Languages.
- Literacy and Numeracy features across the curriculum in a variety of ways, including form time competitions
- A focus on developing students oracy skills explicitly during life skills lessons
- Year 12 all undertake work experience
- A wide range of educational visits take place, many of which are treated as entitlement visits and open to entire cohorts and many also act as challenge opportunities for the more able. All go through a careful scrutiny of their impact on learning

12. Intended Impact of New Model:

Broadly speaking our aim in the new model is to:

- Ensure breadth of study for all, where academic, vocational, creative, expressive, talent and applied learning are all valued
- Move towards EBAC for all who want to choose this route of study
- Ensure those with literacy difficulties, have a broad and balanced curriculum which enables them to excel in accessible courses and develop their literacy as far as possible
- Create capacity for personalisation, challenge and support
- Create time to more deeply understand concepts, connect knowledge and master skills
- Maintain challenge and progress at Key Stage 3
- Develop more cross-curricular links
